Image

SITUATION

Image

The screenshot displays the Ecologistics software interface. At the top left, the logo 'Ecologistics' is visible. Below it, a navigation panel includes 'Plan' (selected), 'Satellite', 'Terrain', and 'Hybride' options. The main area features a map of the Brussels region with a red banner 'With EPCIS' and a black data table overlay. Below the map, another red banner reads 'With authorization'. The interface is divided into two columns: 'MONS' on the left and 'BRUXELLES' on the right. Each column contains two data tables. The 'MONS' tables have green headers and rows, while the 'BRUXELLES' tables have cyan and pink headers and rows. The 'BRUXELLES' section is preceded by the text 'We are here -> BRUXELLES'.

FEN_TDT1

Image

The screenshot shows a WinDev window titled 'FEN_TDT1'. The window contains a form with the following elements:

- SGTIN**: A text input field.
- EPC Pure Identity URI**: A text input field, with a blue arrow pointing down to it from the SGTIN field.
- EPC Tag URI**: A text input field.
- EPC Binary**: A text input field.
- EPC HEXA**: A text input field.
- Import Prefix**: A button located to the right of the SGTIN field.
- A large white rectangular area on the right side of the form, possibly a placeholder for an image or a large text area.
